Intensive Cloud Computing Hands-On Training - Mission 1

Welcome to the Training that can change the course of your career in the technology market.

Mission 1: You'll learn how to enable a **MultiCloud architecture** deployment through **Terraform**, with resources running in **AWS** and **Google Cloud Platform**.

Summary of Mission 1

Steps to create your AWS Free Account

Steps to create your GCP Free Account

Steps to implement Hands-on Project - Mission 1

Your Mission Today

Join our Slack community and introduce yourself in the #en-community channel. Tell us your goals, and what do you expect to learn during the Intensive Cloud Computing Hands-on Training.

Create a Free Account on AWS and Google Cloud

Deploy the infrastructure using Terraform

Take a screenshot of your infrastructure resources up & running in AWS and Google Cloud as evidence to get the certificate at the end of the challenge

Create a post on your LinkedIn Profile showcasing what you've done, tag @Jean Rodrigues, @The Cloud Bootcamp and invite your friends to go for it with you as well. Share this link with them.
